## Bill Blagg's *The Science of Magic*

For centuries, magicians have used scientific principles to make people levitate in mid-air and vanish in the blink of an eye. Illusionist Bill Blagg's one-of-a-kind educational experience takes you on a rare, never-before-seen journey "behind the scenes" of the magic world. *The Science of Magic* is designed to excite, educate, intrigue, and encourage students to think "outside the box" and spawn their curiosity about how science and the Scientific Method are used by magicians to create the impossible.

The two men may be of different races and on different sides of the Civil War, but they have much to teach each other about bravery and loyalty.
